

BNC LIQUID INDEX SERIES JANUARY 2022 QUARTERLY REVIEW

Auckland, January 20th 2021: Brave New Coin Index Governance Committee announces the following items discussed during the BNC January 2022 Quarterly Index Review. These changes will affect all LX Indices.

Index Name	Nasdaq GIDS Ticker	Reuters Instrument Code
Bitcoin Liquid Index (BLX)	INDEXNASDAQ:BLX	BTCINX=BNC
Ethereum Liquid Index (ELX)	INDEXNASDAQ:ELX	ELXINX=BNC
XRP Liquid Index (XRPLX)	INDEXNASDAQ:XRPLX	XRPINX=BNC

The Liquid Index series is a collection of single-asset indices covering the largest crypto currencies (BTC, ETH and XRP). Each index is priced using transaction data sourced from the most trusted and liquid exchanges. The Liquid Indices Series is used by a number of industry professionals, financial products and has been independently audited and aligned with IOSCO benchmark principles.

Trust factors

A number of quantitative features are sampled for each constituent market over the last quarter, to monitor liquidity and index health. The ordebooks of constituent markets retained their depth, as did the average number of transactions per day.

Based on the quantitative factors above, the constituent trust factors for each index (BLX, ELX and XRPLX) have been recalculated for the next quarter, with no material differences from last quarter. The BNC Governance Committee has accepted these updated trust factors and will be implemented on Friday 21st January, 01:00:00 UTC.

UPDATE TO THE LIST OF ELIGIBLE MARKETS

The BNC Governance Index Committee has acknowledged the liquidity and order book depth on the following pricing sources (exchanges) and therefore will be included as part of the “Eligible Markets and Universe” for the BNC Liquid Index Series, effective January 2022 Quarterly Index Review.
