

BNC LIQUID INDEX SERIES OCTOBER 2021 QUARTERLY REVIEW

Auckland, October 20th 2021: Brave New Coin Index Governance Committee announces the following items discussed during the BNC October 2021 Quarterly Index Review. These changes will affect all LX Indices.

Index Name	Nasdaq GIDS Ticker	Reuters Instrument Code
Bitcoin Liquid Index (BLX)	INDEXNASDAQ:BLX	BTCINX=BNC
Ethereum Liquid Index (ELX)	INDEXNASDAQ:ELX	ELXINX=BNC
XRP Liquid Index (XRPLX)	INDEXNASDAQ:XRPLX	XRPINX=BNC

The Liquid Index series is a collection of single-asset indices covering the largest crypto currencies (BTC, ETH and XRP). Each index is priced using transaction data sourced from the most trusted and liquid exchanges. The Liquid Indices Series is used by a number of industry professionals, financial products and has been independently audited and aligned with IOSCO benchmark principles.

Trust factors

A number of quantitative features are sampled for each constituent market over the last quarter, to monitor liquidity and index health. The ordebooks of constituent markets retained their depth, as did the average number of transactions per day.

Based on the quantitative factors above, the constituent trust factors for each index (BLX, ELX and XRPLX) have been recalculated for the next quarter, with no material differences from last quarter. The BNC Governance Committee has accepted these updated trust factors and will be implemented on Wednesday 20th October, 01:30:00 UTC.

UPDATE TO THE CONSTITUENTS OF BNC LIQUID INDEX SERIES

The BNC Governance Index Committee monitors the liquidity and order book depth on the various pricing sources (exchanges) and therefore are included as part of the “Eligible Markets and Universe” for the Liquid Index Series.

After sufficient monitoring of the “Eligible Markets and Universe” pricing sources, the BNC Governance Index Committee has approved to include LMAX Digital as a pricing source in the Ethereum Liquid Index (ELX) and XRP Liquid Index (XRPLX).

Index	Exchange	Market

This market will be excluded with effect from Wednesday 20th October, 01:30:00 and complete its 24 hour phase-out period by Thursday 21st September, 01:30:00 UTC.
