

## BNC LIQUID INDEX SERIES OCTOBER 2022 QUARTERLY REVIEW

**Auckland, October 11th 2022:** Brave New Coin Index Governance Committee announces the following items discussed during the BNC October 2022 Quarterly Index Review. These changes will affect all LX Indices.

Index Name	Nasdaq GIDS Ticker	Reuters Instrument Code
Bitcoin Liquid Index (BLX)	INDEXNASDAQ:BLX	BTCINX=BNC
Ethereum Liquid Index (ELX)	INDEXNASDAQ:ELX	ELXINX=BNC
XRP Liquid Index (XRPLX)	INDEXNASDAQ:XRPLX	XRPINX=BNC

The Liquid Index series is a collection of single-asset indices covering the largest crypto currencies (BTC, ETH and XRP). Each index is priced using transaction data sourced from the most trusted and liquid exchanges. The Liquid Indices Series is used by a number of industry professionals, financial products and has been independently audited and aligned with IOSCO benchmark principles.

### Trust factors

A number of quantitative features are sampled for each constituent market over the last quarter, to monitor liquidity and index health. The ordebooks of constituent markets retained their depth, as did the average number of transactions per day.

Based on the quantitative factors above, the constituent trust factors for each index (BLX, ELX and XRPLX) have been recalculated for the next quarter, with no material differences from last quarter. The BNC Governance Committee has accepted these updated trust factors and will be implemented on Thursday 13th October, 00:30:00 UTC.

## UPDATE TO THE CONSTITUENTS OF BNC LIQUID INDEX SERIES

The Liquid Index (LX) Committee continually monitors the liquidity (volume and order book depth) and ongoing eligibility of pricing sources (exchanges). Periodic adjustments to the constituent markets of each index are made to ensure the accurate measure of the underlying interest.

After sufficient monitoring of the “Eligible Markets and Universe” pricing sources, the BNC Governance Index Committee has approved to include FTX as a pricing source in the XRP Liquid Index (XRPLX).

**Included:**

Index	Exchange	Market
XRP Liquid Index (XRPLX)	FTX	XRP/USD

These markets will be introduced with effect from Thursday 13th October, 00:30:00 UTC and complete its 24 hour phase-in period by Friday 14th October, 00:30:00 UTC.

**About the Brave New Coin Liquid Index Series**

The BNC Liquid Index (LX) series is a family of single-asset price indices representing the fair value of crypto assets, used for settlement and reference pricing. Indices are derived from transaction data, sourced from the world’s most trusted and liquid trading platforms. The LX series is administered by Brave New Coin (BNC) who retain primary responsibility for all aspects of the benchmark determination process, and has been independently audited and aligned with IOSCO benchmark principles. BNC is a leading provider of market data services and institutional grade cryptocurrency indices. Founded in 2014, BNC has built a strong reputation for independence, objectivity, robust processes and technical innovation.
